Superstar

The new Canon T70 makes the great shots simple.

When N.H.L. superstar Wayne Gretzky shoots a goal, he does it so well he makes it look simple.

When Gretzky shoots pictures, he uses the superstar SLR—the incredible new Canon T70, with automatic features so advanced it makes the great shots simple.

The new T70 actually loads itself! A built-in power winder advances the film and rewinds, too. Electronic touch-buttons control all functions and a bright LCD display provides a full information readout.

You just focus-and-shoot with three programmed modes: standard program

for most subjects, TELE for action and telephoto shots, WIDE for scenics and wide-angle shots. Shutter-priority mode lets you set speeds for total control over action, and the optional Canon Speedlite 277T provides fully automatic flash. So you can make really great shots without giving up automatic convenience.

The optional Command Back 70 adds even more incredible capabilities, and the entire line of over fifty Canon FD lenses can be used.

Get the superstar SLR. It makes the great shots simple.

An 1846 Sailor Frozen in Time

Petty Officer John Torrington was buried for 138 years and recently unearthed from the subfreezing tundra of Canada's remote Beechey Island (left). Researchers from the University of Alberta learned from an autopsy that the seaman had probably died of pneumonia. Torrington, 20, was a member of Sir John Franklin's ill-fated expedition to find a northwest passage. All 129 crew perished. No one knows why, but records show that Torrington was the first.

Shades of Michael Jackson

Rock stars, like politicians, can rate success by the size of their security force. By any standard, Michael Jackson's entourage for a concert in Pontiac, Mich., set an impressive mark. His own bodyguards were augmented by a small army of Pontiac's finest—all of whom made spectacles of themselves.
